

THE OFFICE OF THE NOBEL LAUREATES
PERTH WESTERN AUSTRALIA

Dear Friends, Patients and Colleagues,

Time has flown and it is now more than 5 years since Dr Robin Warren and I (Professor Barry Marshall) were announced as the recipients of 2005 Nobel Prize in Physiology and Medicine. Since then we have been honoured in many ways such as our appointment in 2007 as Companions in the General Division of the Order of Australia (AC), being named the 2007 Western Australians of the Year, and the 2006 Western Australian Citizens of the Year and being asked to represent Science and Innovation as Ambassadors for Life Sciences by the Western Australia government in 2006.

From the time of receiving the Nobel Prize it has been important to us to ensure that the benefits of the Nobel Prize flow back into the community. We can most effectively do this by offering our perspective to community/scientific conversations, participating on advisory committees and promoting the work and impact of the high level scientific research being conducted in Western Australia. We are also Patrons of many organisations and campaigns and we aim to be as receptive as possible to requests for our attendance and attention to activities held throughout Australia and overseas.

To help us flow the benefits of the Nobel Prize back to the community we have established an Office of Nobel Laureates that is managed by Mrs Kris Laurie. Kris is available to discuss your ideas and requests and to work with you to ensure the best possible outcomes are achieved.

The preferred contact is email: klaurie@helicobacter.com

Phone: +61 8 6488 4658
Fax: +61 8 6488 4657
Mobile: +61 (0) 400940590

Postal address:

c/- Mrs Kris Laurie
The Office of the Nobel Laureates, Perth Western Australia
PO Box 1031, Claremont
Western Australia 6910

Office location:

The Office of the Nobel Laureates - Perth WA
The University of Western Australia
Goldsworthy Road
Claremont
Western Australia 6010

Nobel Laureate activities, media and interview requests

Please direct your enquiries, requests and invitations for Dr Robin Warren and Professor Barry Marshall to Kris Laurie by email to klaurie@helicobacter.com. The office has well developed processes and can respond to your requests and inquiries quickly and efficiently. Kris will acknowledge your email and if it needs to be re-directed to another area of our activities she will ensure your email is received by the most appropriate person for attention.

Dr Robin Warren is retired and while this may impact on the number of engagements he accepts, he is still very active with a wide range of interests. He is particularly receptive to requests for media interviews and Q & A sessions with students from Perth educational and training institutions. He prefers to focus on his areas of expertise (gastric histopathology) and his experiences as a Nobel Prize winner.

Requests for information, autographs and photographs

If you need us to send something back to you, like a signed card or photograph, then it helps defer our costs if you send a self addressed envelope and approximately \$5 of paper currency (a major currency is preferred but not strictly essential).

Requests for advice on medical treatment for Helicobacter or other things.

For patients with difficult to manage Helicobacter infections, a fax from your doctor to our office is usually necessary (08-93464816). Prof. Marshall only sees a few patients at Sir Charles Gairdner Hospital and does not have a private practice. For assistance please contact Dr Alfred Tay (08-93454817) alfred.tay@gmail.com or Ms Elina Spina (08-93464815) admin@hpylori.com.au

For learning about Hp, or requiring treatment information please visit www.helico.com
For images, media pictures, academic and laboratory information please visit www.hpylori.com.au.

For questions unrelated to Helicobacter, our expertise is limited, but we are preparing some internet information resources.

Marshall Centre for Infectious Diseases Research & Training

Professor Marshall is Co-Director, with Professor Geoff Shellam, of the Marshall Centre for Infectious Diseases Research & Training which is located with the QEII Medical Centre, G13 L Block Monash Avenue, Nedlands WA 6009 Australia.

For further information please contact Ms Elina Spina admin@hpylori.com.au

Administrative Officer & Secretary to Professor Barry J Marshall.
